Madison, Wisconsin | (765) 271-0145 | starjune07@gmail.com

JUNYOUNG OH

COMPUTER SCIENCE STUDENT

PROFILE

UW-Madison freshman with experience building web applications and computer vision projects, and collaborating on software and robotics teams.

EDUCATION

University of Wisconsin-Madison Fall 2026-Present
Bachelor of Science student | Intended major: Computer Science
Current coursework: CS 300 - Programming II (Java)
Campus involvement: LIKELION Wisconsin, Member

SKILLS

JavaScript, TypeScript, Python, Java, HTML/CSS
React, MediaPipe, YOLO, API integration, Git/GitHub

PROJECTS

MorrowLab | Core Developer
Badger BuildFest 2026 | UW-Madison Sep. 26-27, 2026

- Built core features for a React/TypeScript study app combining activity tracking and self-evaluation to recommend next-day study schedules.
- Integrated MediaPipe object detection and face tracking to identify phone use and time away, with camera processing kept on-device.

Student Morning Information Dashboard | Web
SOURCE Programming Club | Jamsil High School

- Built backend integrations for weather and stock APIs and contributed HTML/CSS and JavaScript to a student information dashboard.
- Organized reusable modules and collaborated through GitHub and peer code reviews.

Cybersecurity Learning Game | Python
Seoul Women's University | Information Security Gifted Program

- Developed a Python learning game that introduces cybersecurity concepts through interactive questions.

Object Detection Prototype | Python, YOLO
The Academies by Harvard Student Agencies

- Used YOLO in Python to implement object detection and explored machine learning models with NumPy and PyTorch.

EXPERIENCE

FIRST Robotics TechnoKats 2024-2026
Mechanical and Software Member | Kokomo High School

- Contributed CAD drivetrain designs and Java robot control code.

Student Council | Publicity and Club Affairs
Jamsil High School and Pungsung Middle School 2022-2024

- Coordinated event publicity and scheduling; centralized contacts for 30+ clubs.
- Developed and operated a student-run vending machine project.

HONORS

Programming Subject Excellence Award | National Honor Society
